## Welcome

The American Clinical Neurophysiology Society (ACNS) and the Canadian Society of Clinical Neurophysiologists (CSCN) are pleased to announce the 31st International Congress of Clinical Neurophysiology (ICCN) of the International Federation of Clinical Neurophysiology (IFCN) will be held May 1-6, 2018 in Washington, DC, USA.

The 31st ICCN program will include several of ACNS's signature courses, as well as courses and workshops planned by IFCN Member Societies and other prominent societies in clinical neurophysiology from the US and around the world.

Pre-Congress courses and workshops are designed to provide a solid review of the fundamentals and the latest scientific advances in both central and peripheral clinical neurophysiology.

Three days of general and concurrent Congress sessions will follow including honorary lectures, symposia, platform presentations, controversy sessions, and industry-supported satellite symposia.

ACNS and CSCN are honored to co-host ICCN 2018 and to welcome colleagues to Washington, DC.
